

ArroundU

EXPERIENCE IS THE BEST WORKPLACE HERE

Why AroundU ?

Currently, it is often difficult to locate a plumber or mechanic promptly in case of an urgent requirement, despite the fact that there are also jobless individuals in these professions.

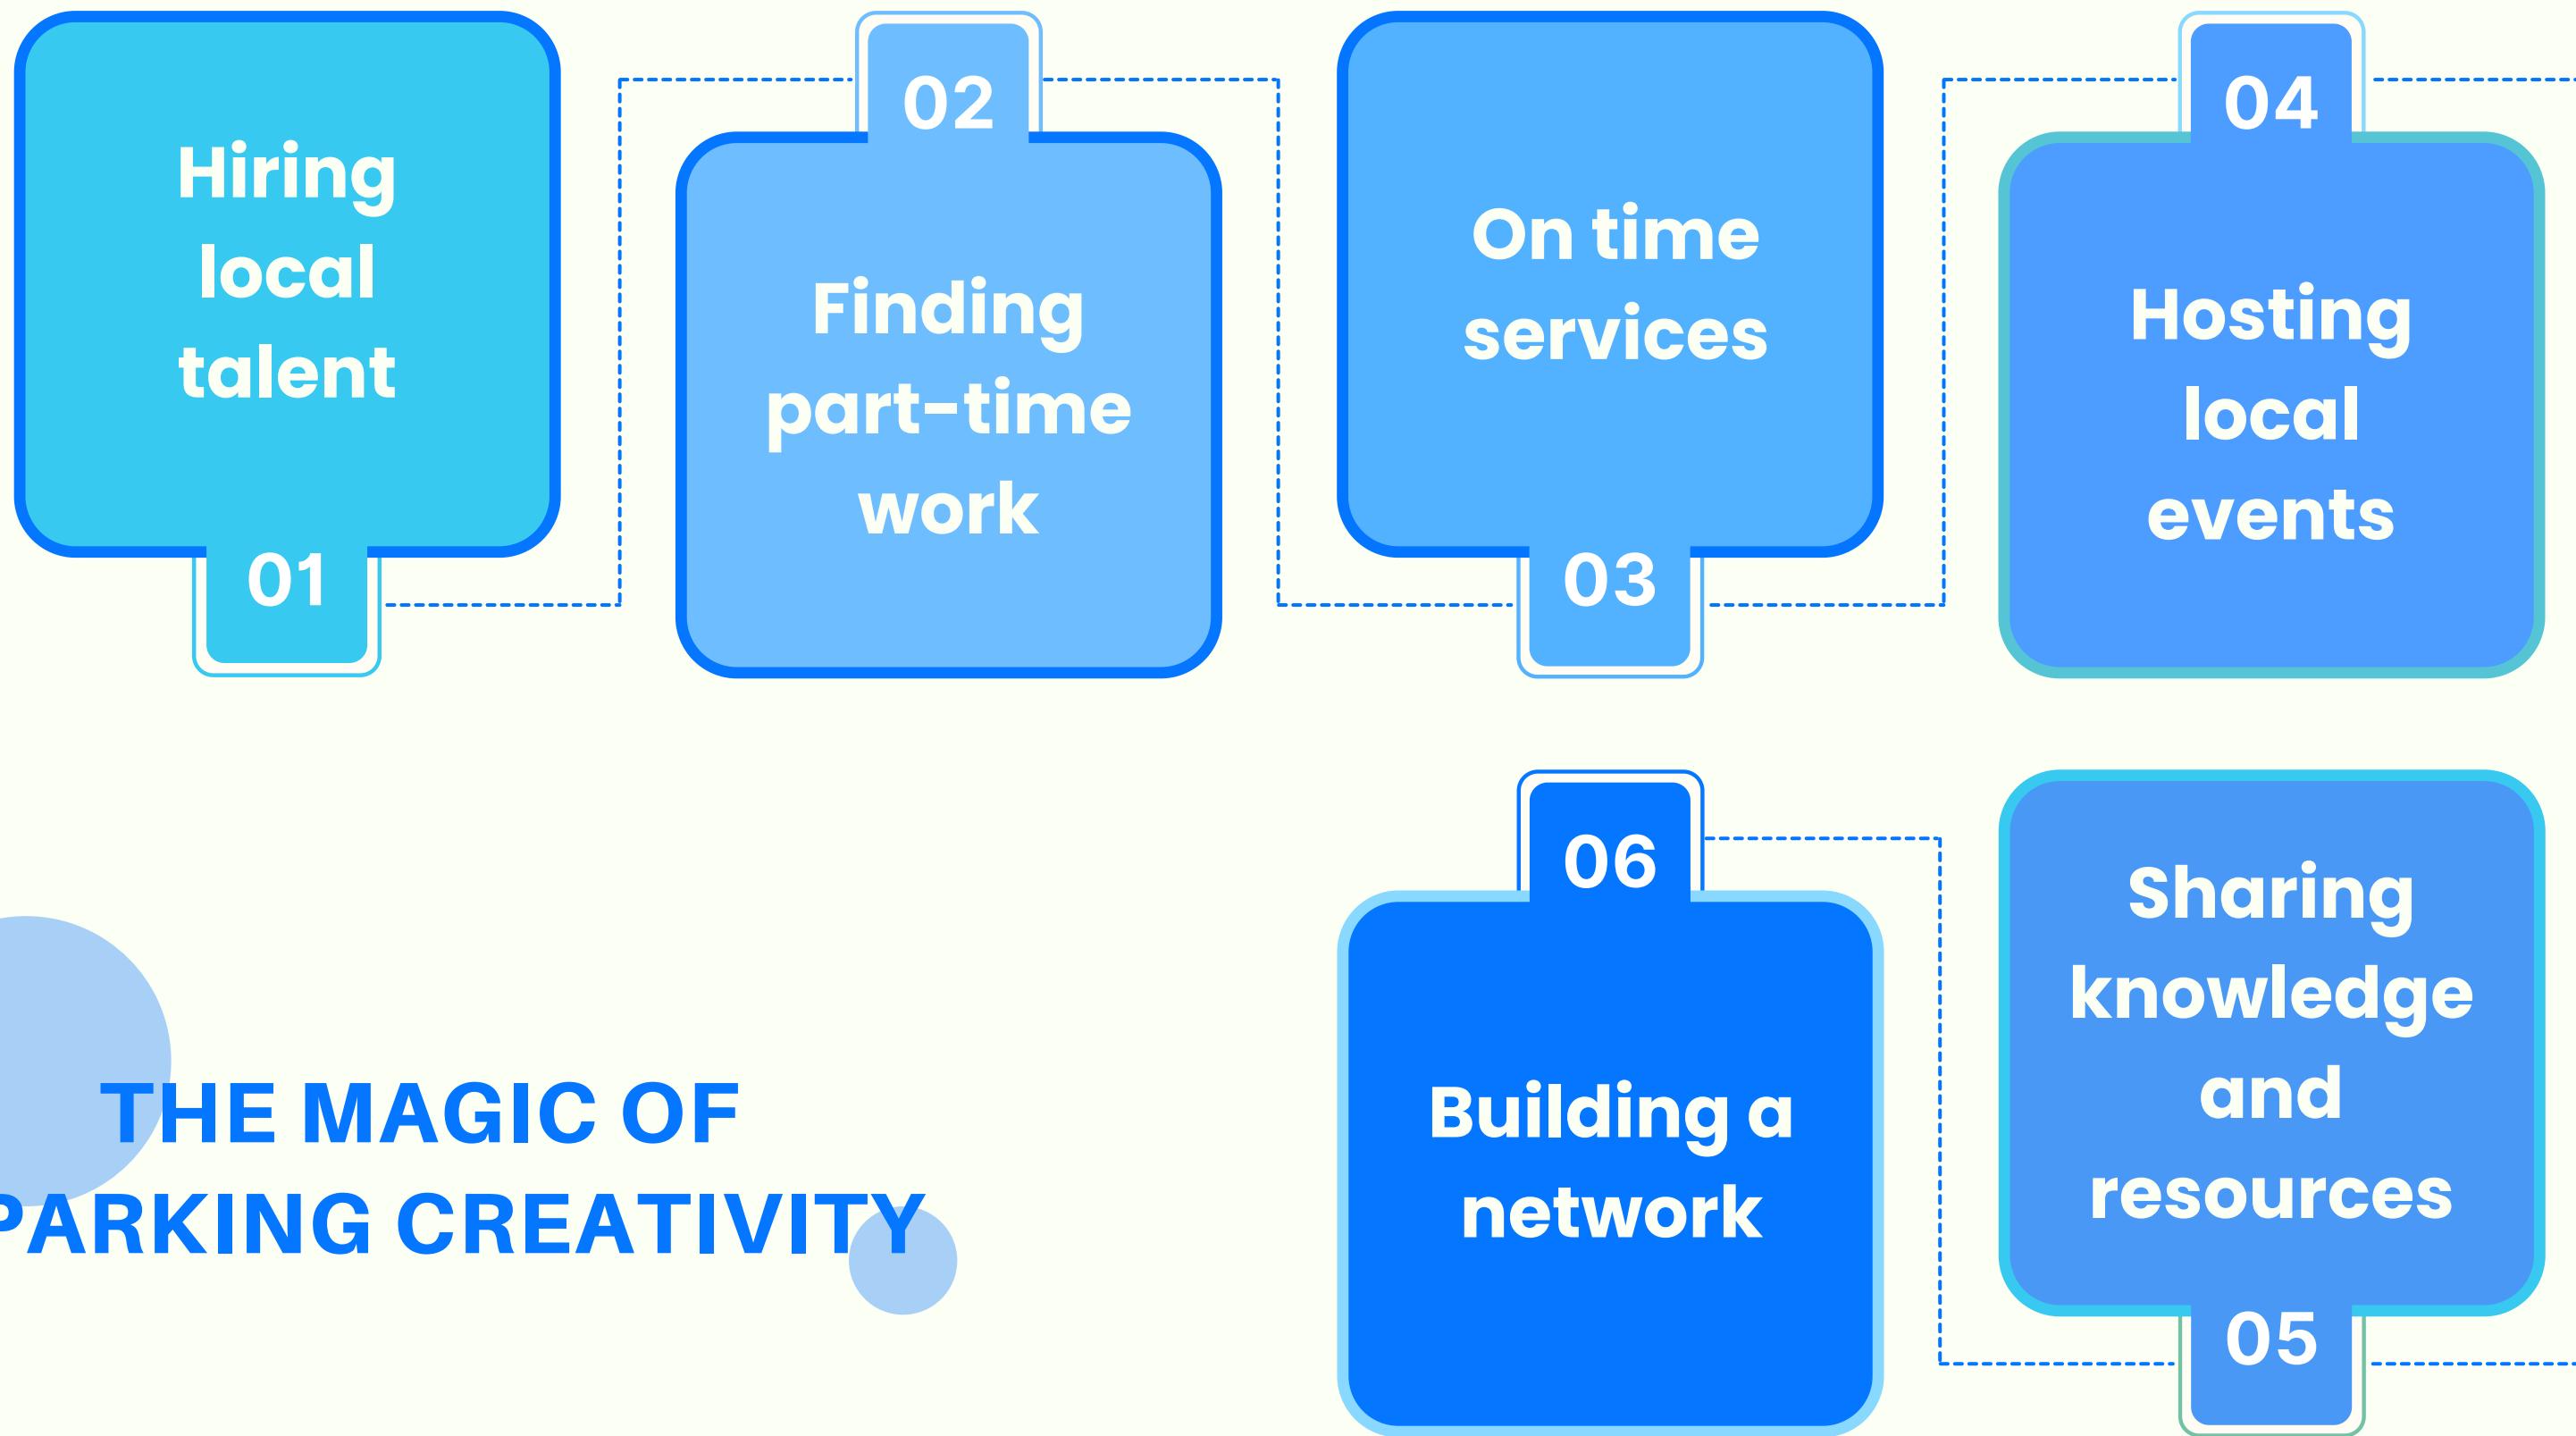

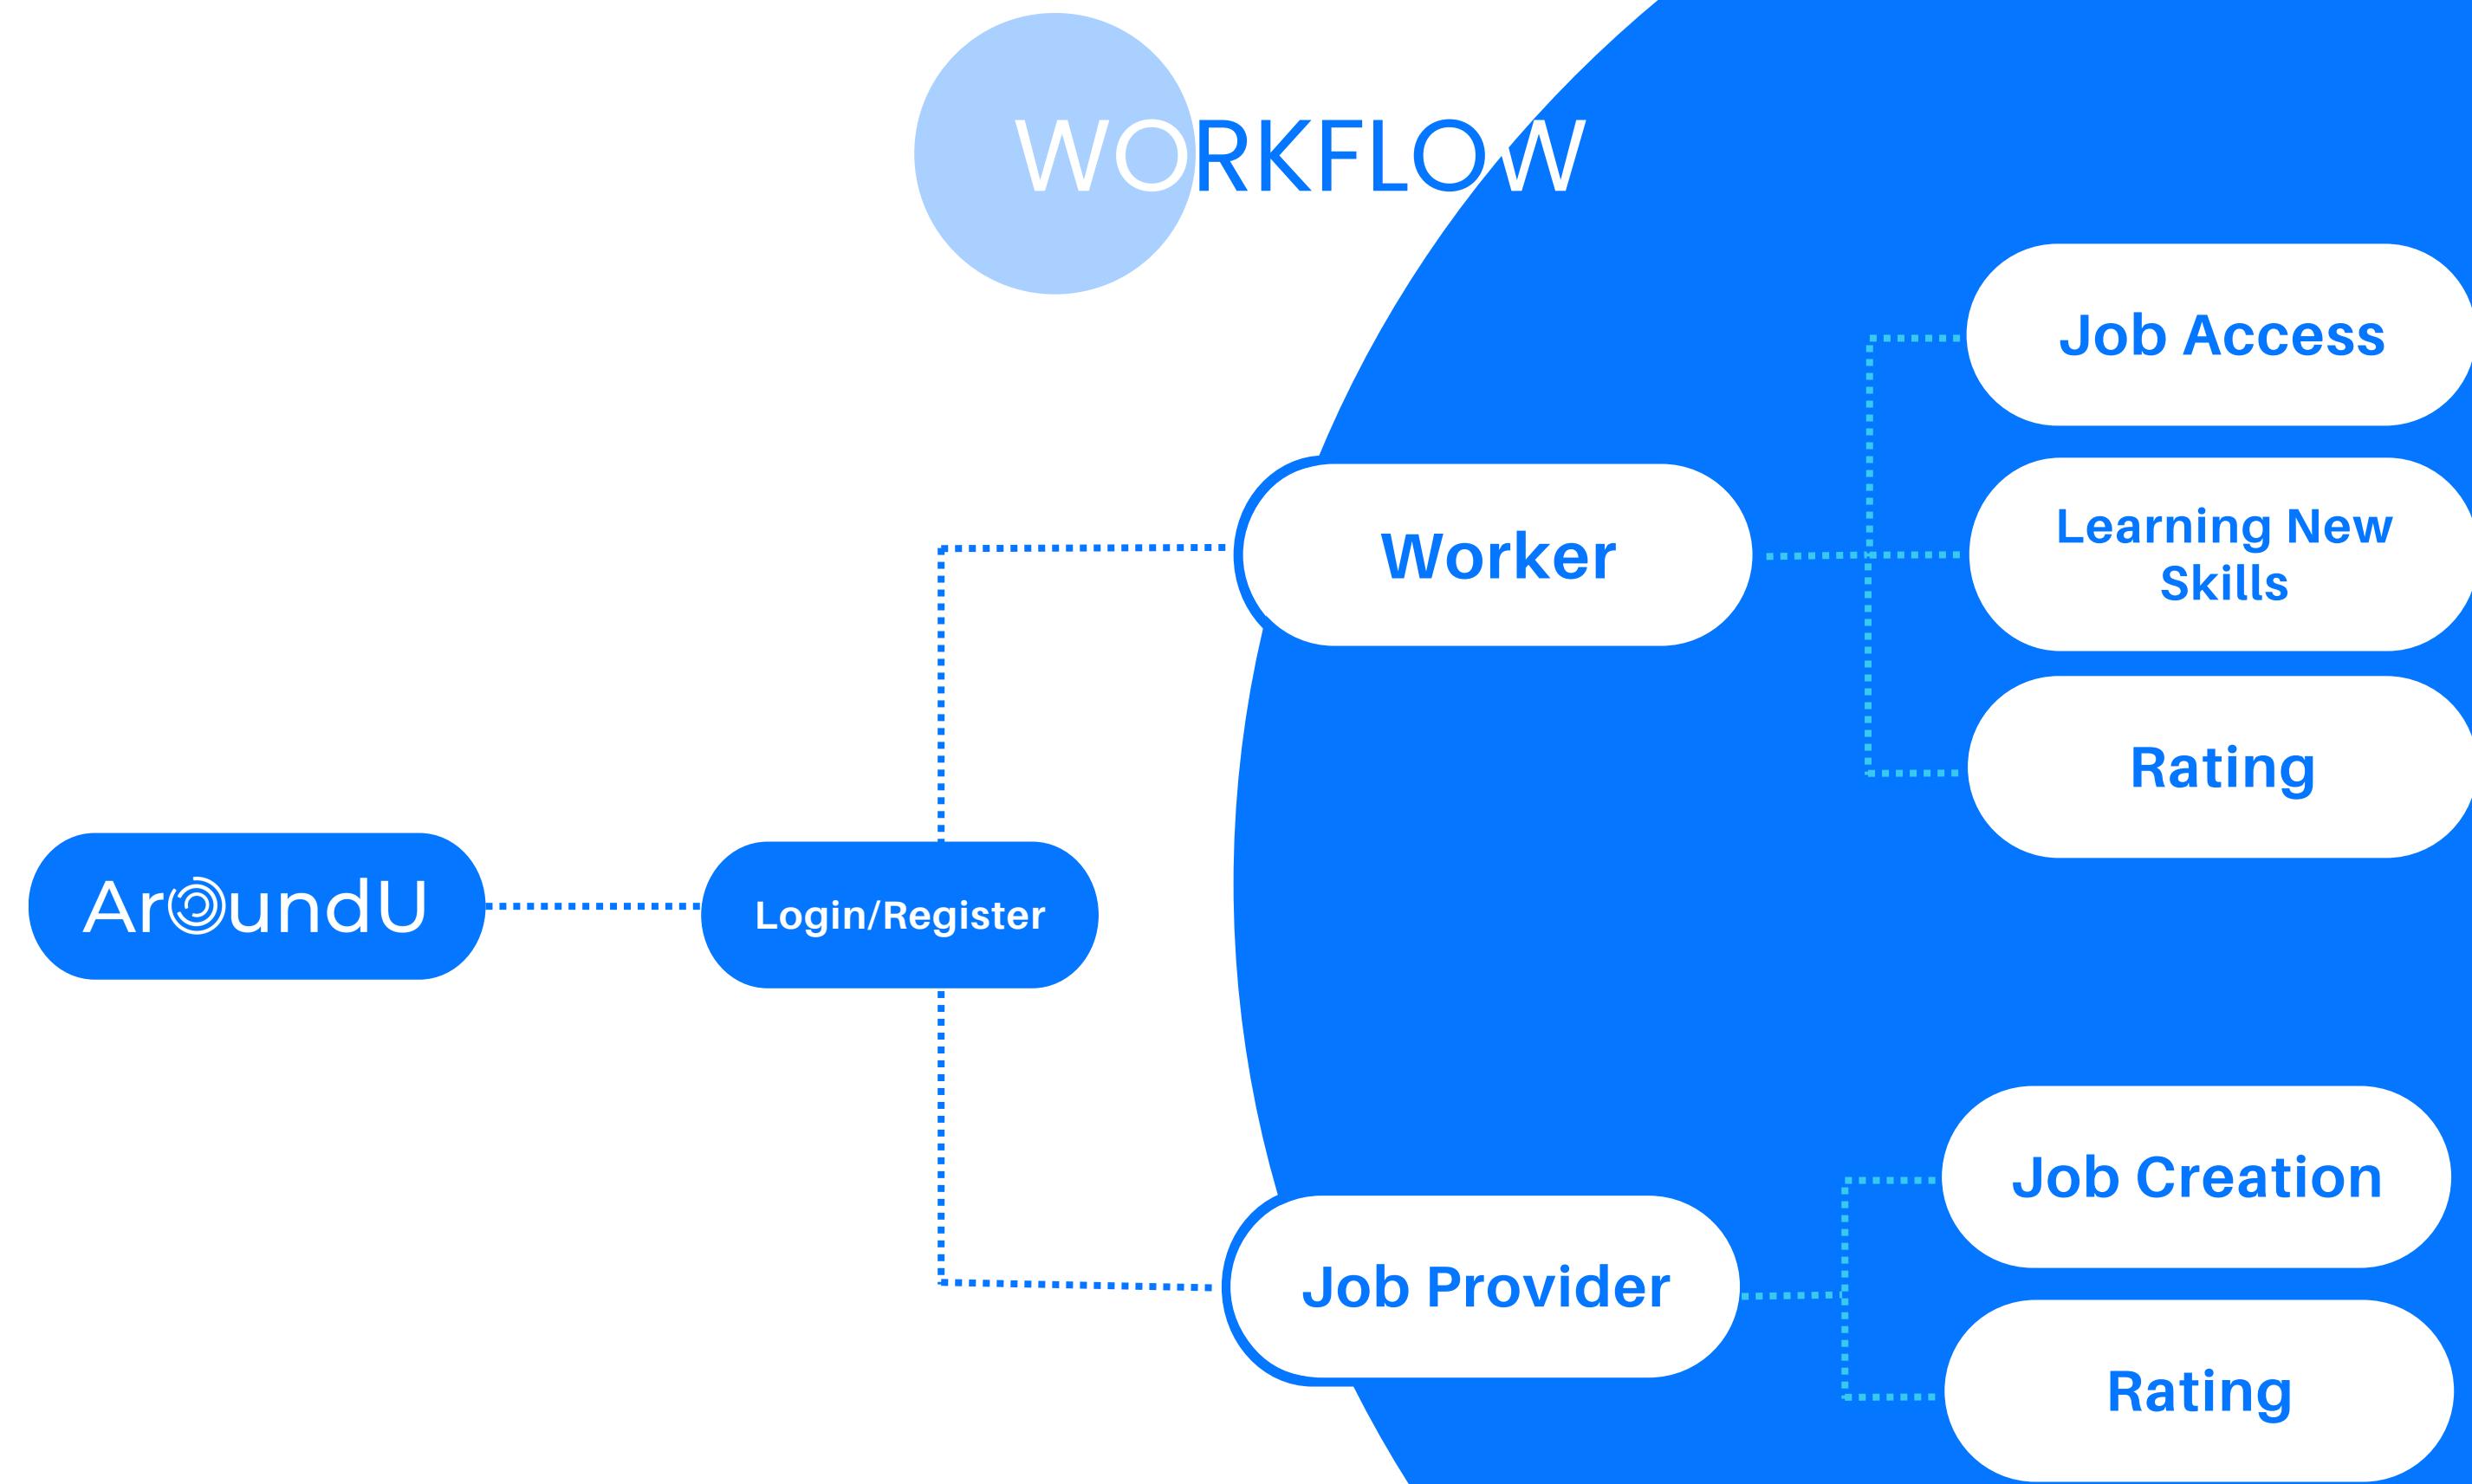

IDEA

The application aims to develop an online platform similar to a freelancing website where service seekers can post the kind of work they are looking for, offering physical labour rather than digital work, and freelancers can then bid to complete it. Service providers can set up profiles, register themselves, and mention their skills and work experience in the field they master. In this way, we can facilitate the digital connection between freelancers and clients by providing them with a large user-based platform to meet their demands.

THE MAGIC OF SPARKING CREATIVITY

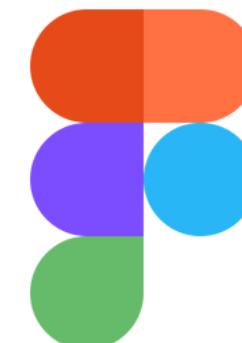

TECHNOLOGIES

FRONT-END

TOOLS

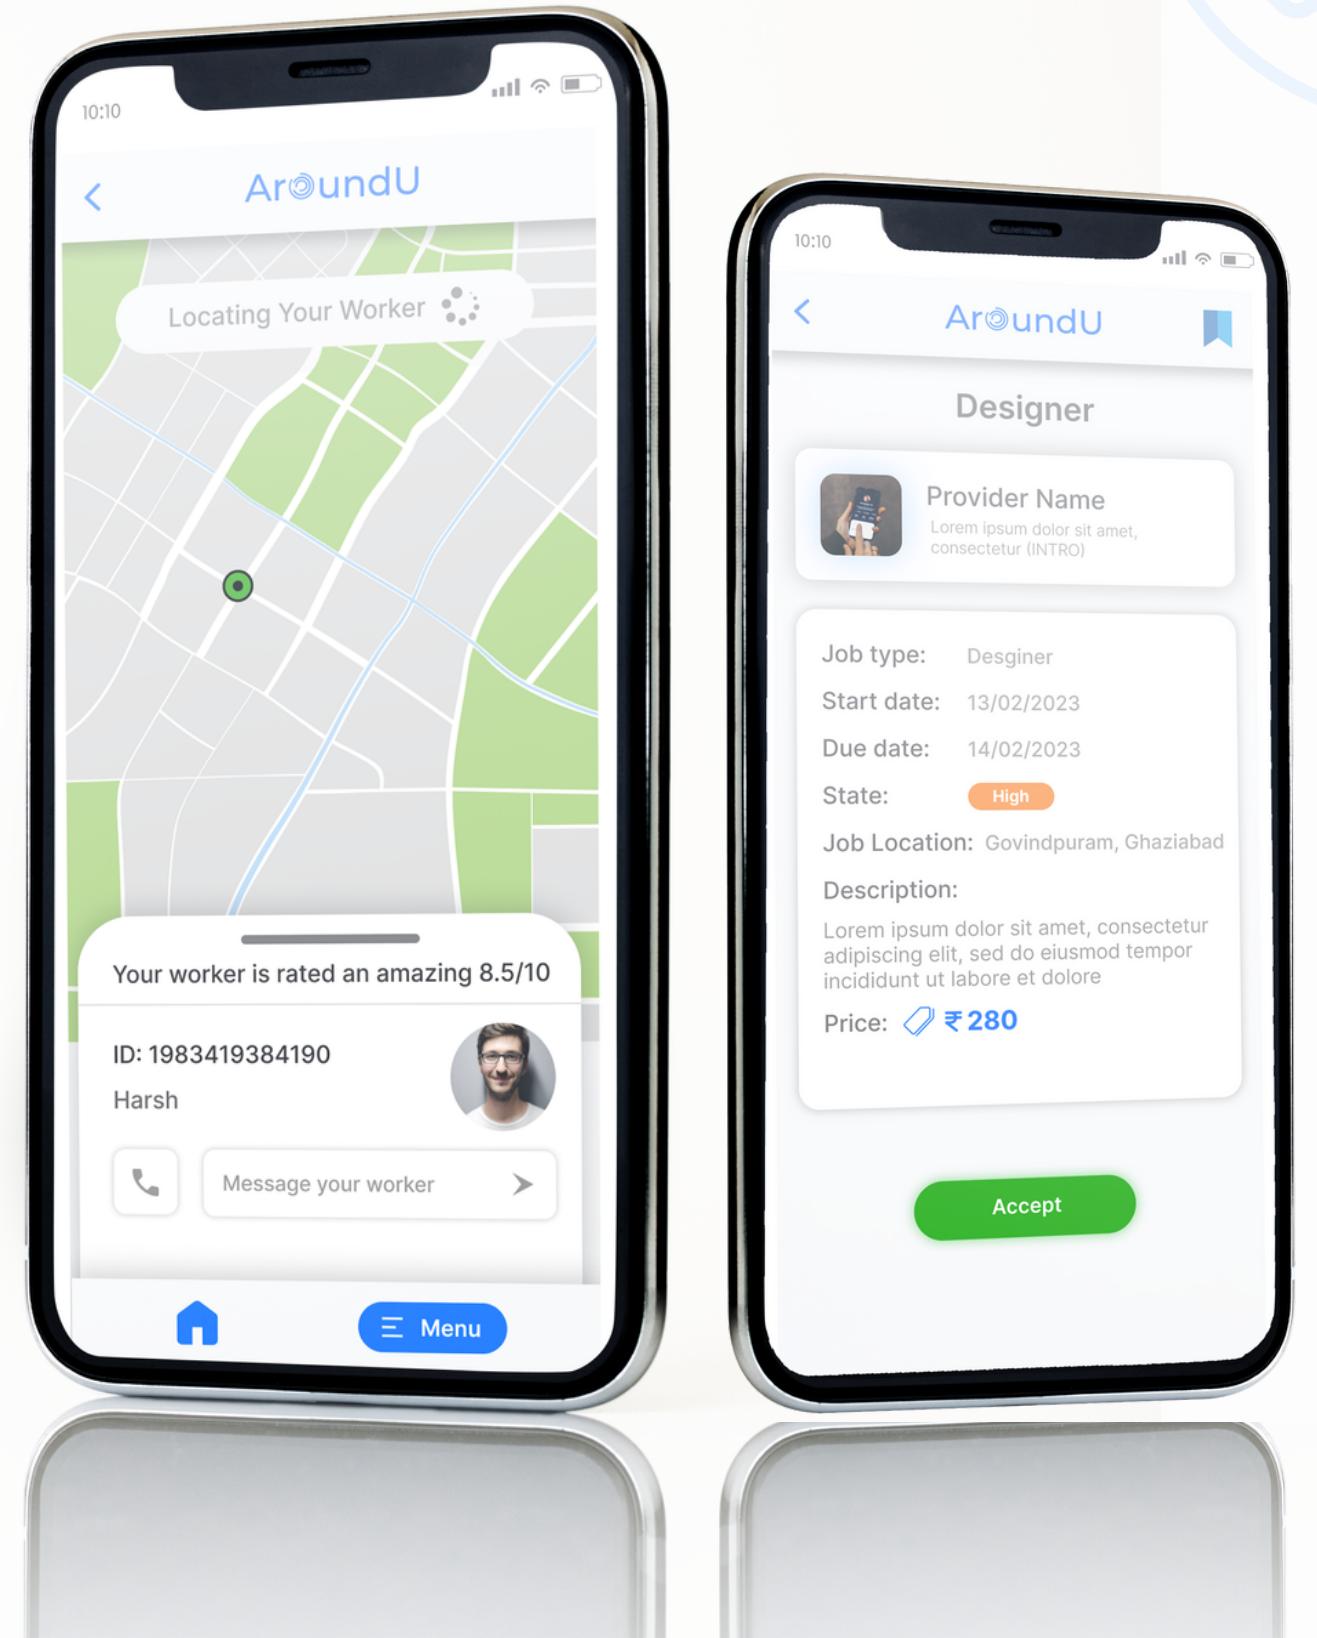

BACK-END

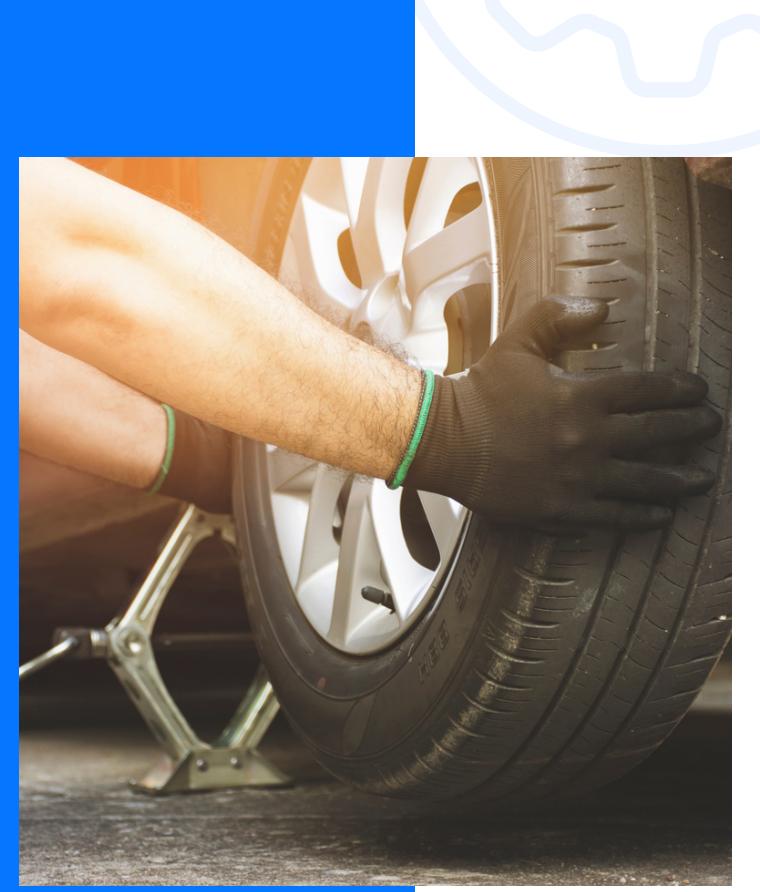

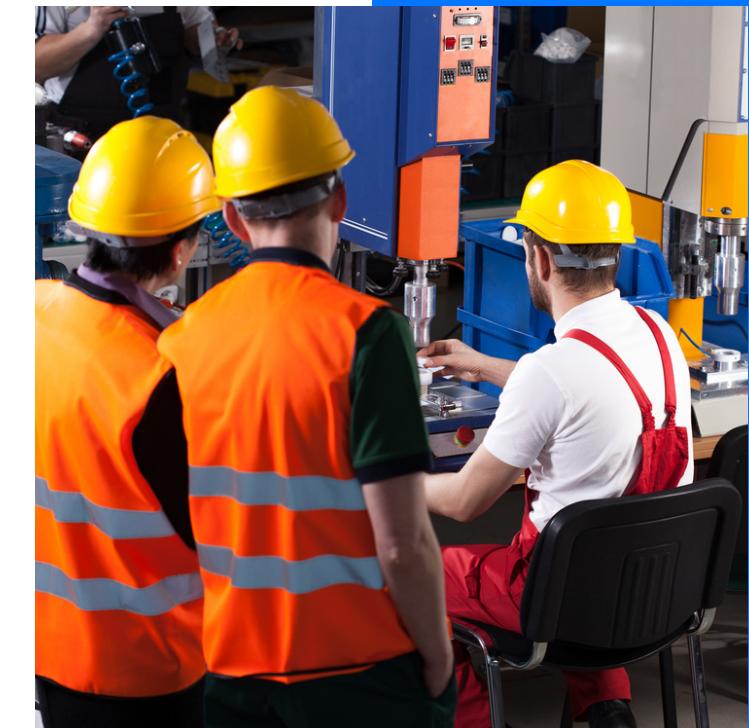

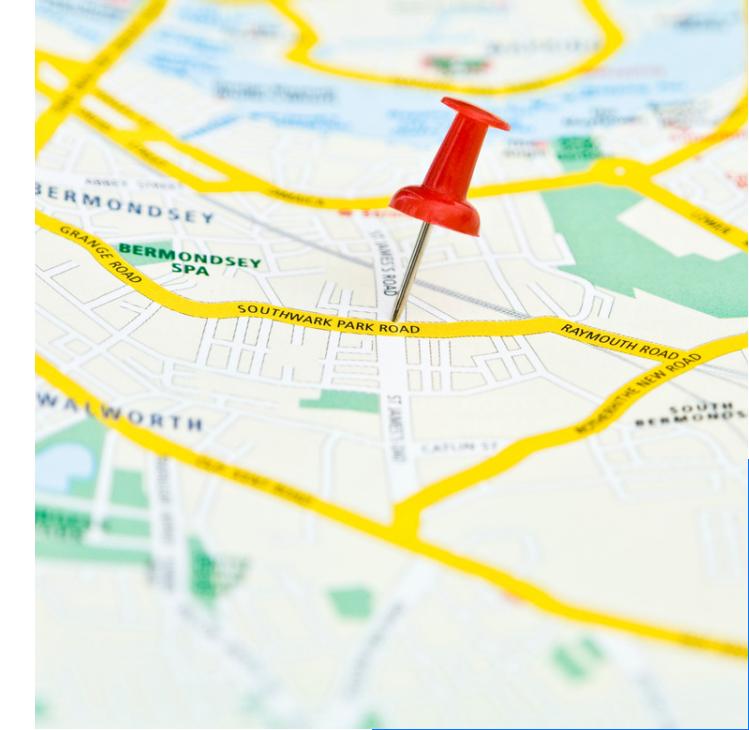

FEATURES

- **Door to Door services**
- **Customer satisfaction**
- **Enhance your skills**
- **Simple & interactive UI**
- **Feedback**

FUTURE SCOPE

- Live tracking
- Incentives and coupons
- Save jobs for later
- Ed-Tech
- Urgency-wise tracking
